1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

2. The second part of the paper is devoted to a discussion of the specific properties of the atom. It is shown that the specific properties of the atom are determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

3. The third part of the paper is devoted to a discussion of the applications of the theory of the structure of the atom. It is shown that the theory of the structure of the atom has many important applications, and that the laws of quantum mechanics are in agreement with the experimental facts.

4. The fourth part of the paper is devoted to a discussion of the future of the theory of the structure of the atom. It is shown that the theory of the structure of the atom is still in the early stages of development, and that many important questions remain to be solved.

Hohenbaum. Lillian Jan 28 '15
Jan 13, 1915 apt. Nov 12, 1918. 1st & 8th Ave.
New York.
